DISTRICT PARTICIPATING IN TECHNOLOGY PROGRAM

December 2, 2019

(MACON, GA) – The Bibb County School District is participating in the 1Million Project Foundation. This program provides students who do not have reliable internet access with smart phones or Wi-Fi hotspots and a monthly data plan.

Bibb was one of seven school districts in the state of Georgia selected to participate and received 350 devices as a result, with more devices to be received in the coming months. Each of these devices comes with 10GB of monthly high-speed data, and the District plans to order more devices.
