District Launches Next Strategic Plan, #Built4Bibb

Today, we launched our new #Built4Bibb Strategic Plan. What's it all about? Let Superintendent Dr. Dan A. Sims fill you in! | By Bibb County School District | Facebook

The Bibb County School District unveiled the Strategic Design Framework outlining the path forward for the next 5 years, #Built4Bibb: More Victory Planned. District staff have worked diligently along with the Board of Education, the community, parents, employees, and most importantly, students to develop a plan that represents the voices of all those invested in this journey toward increased success for every student.

Proposed Mission: The BCSD maximizes student achievement and social-emotional well-being by building a sense of community in safe, equitable learning environments.

Proposed Vision: Students are empowered to learn, lead, innovate, and serve as productive and caring citizens within their chosen paths of success.

Call to Action: Built by Bibb: Empowered to Learn, Lead, Innovate, and Serve

The District and Strategic Plan Design Team members believe this mission and vision represent the current and pressing needs and dreams for Bibb's students and the community's work together to prepare every learner for college, careers and life.

Three key areas will guide the District's work under the strategic plan – **student achievement, staff effectiveness and stakeholder engagement**. All of this will create an environment where students take increased ownership for their learning. They will take on a **4ME** attitude and embrace every learning experience inside and outside our classrooms.

When students complete school, they will be empowered to make an executive decision as learners, leaders, innovators and servants of their communities to become matched and enrolled in a college or university, meaningfully employed in the workforce, motivated to enlist in the military or molded for entrepreneurship.
